Hi [redacted]

Thanks for the information, appreciate the direction.

I will discuss further with Professor Hampson and be in touch shortly.

Kind regards

Ellaine

Subject: Fw: Hill's_Murdoch Contract 2012 to 2015

Hello again Ellaine.
I checked with [redacted] just now about the Iodine Ward and this is not a priority for him as part of the new agreement, so I have deleted it from the attached items to consider.

Hi Ellaine,
I hope all is going well with you.
As per your email some weeks ago, we should start work on reviewing inclusions for a new partnership agreement before the current contract ends in September.
For a starting point, would you be able to provide me with a table or outline summarising where/how the funds have been directed for the past 12-18 months, or at least since closure of the Rehab clinic early last year? A snapshot of where the money is currently going would really help me in putting together a new proposal.
As a starting point I have put together where I see our broad areas of support. It is based largely on what we do currently. I have found the current contract quite complicated to follow, and think we

should between us be able to simplify the new one.
I have tentatively re-opened the possibility of contributing to the iodine ward, so can you please provide an update on whether this facility is currently operating and how it is going, or what the plans are for opening it.
I look forward to hearing from you,
Best regards,
[redacted]
