Hi Elaine (sorry for the late reply- exams)

Will all SIG's be attempting to find sponsors in this way?
-I'm a little confused here. Are they asking wll all sigs find sponsors using the letters VMBA have sent out? If that is the question, then no. Not all SIGs use that style of sponsorship packet, if anything. As far as Im aware only BIG and VMBA use that kind of agreement and search for sponsors in that way.

As far as Hill's promotion- I think it would be best to discuss with a representative from Hill's what they would like/require/etc. We are happy to place logos on all of our communications to the student body (with wording such as with generous support from Hill's etc) We'd also ask the SIGs to place Hill's logos on their communications and at events, if they take money from us. However, based on current outlook for 2013, VBMA won't need to take much money from the MVSA, In addition, certain groups (VBMA, Big) have other sponsors already, and if they receive a majority of their money from "Sponsor X" then they will place that group in a prominent position. We've told the SIGs to go along with business as usual, until we know more about our financial situation. Big and vbma are already looking for sponsors (as they do every year), and I can't ask them to stop unless I can guarantee that the MVSA can provide full funding to all SIGs.

if you need anything else, let me know. I'll be checking this inbox more frequently now. You can also call me [redacted]

thanks

Hi [redacted]

Hill's have just sent me the attached, and asked how their support of MVSA, if they should choose to add this in to our sponsorship agreement, will coordinate.

Will all SIG's be attempting to find sponsors in this way?

If Hill's choose to support MVSA, and not VBMA (or another SIG) in this way directly, how will their support be promoted in relation to other sponsors.

Or will they then need to sponsor separate SIG's to receive any benefits from them.

Hope you can help with this asap.

Kind regards

Ellaine
